COMPETITOR BRIEFING & FINAL INSTRUCTIONS

Please take a few minutes to read this document - we must give you most of this information as a condition of our permit and insurance. If you do not understand anything or need any more information, just email. We know there are a lot of questions about how COVID 19 will affect the racing this year.

We have included a bit of our COVID Plan in here. So please read all your briefing notes and everyone must adhere by them. If you do not agree with any of it, please do not come. But in the short of it the general rules apply:

- All the check points have certain items bagged. It is for everyone safety. "BE PATIENT" If you do not like this then be totally self-sufficient.
- Please stay 1.5m away from anyone that does not live in your house. We will be on the mic reminding you of this.
- Do not split on course, please use the hand sanitizers around the place and even bring your own.
- Please, please respect everyone that are here. It has taken a lot to get us COVID Safe and here racing and we want everyone safe, and this will take everyone to abide by these rules.
- Please when lining up for toilets or café, please always practice social distancing.
- If you have a team tent, please use them.
- It is looking to be cold this year so, remember social distancing when around the heaters.
- Please be patient with the volunteers and ETR Crew as we are running on no sleep and with the COVID changes I do not want people getting impatient and losing their s**t over very little things as we have to take more time to do things this year. The RD's have no problem telling you to leave if it gets to that. I will say it again we are all in this together. There are things that we must do by law to make this happen this year safe for everyone.
- We would like everyone to download the COVID SAFE app before the race. This will help with tracing later if need be.
- **Everyone MUST fill in their COVID Safety form online before they either check-in or if you have already received your race pack in the mailout, you must fill out before Friday 6pm. If you have not filled out, no racing.**
- **Masks must be worn to check-in and in the 3x3m tents at race hub. If you cannot stay 1.5m away from people at the race hub, you must please wear a mask. No mask required on course racing except when at each Check Points, Thanks.**

Local Services

We encourage you to support local business/services. Hastings area has a number of hotels, B&Bs, motels, pubs, caravan parks, resorts, holiday houses/units to choose from.

There are a number of restaurants, takeaways, coffee shops, malls, clubs, supermarkets where food and meals can be purchased. The race hub is at Coastal Sports Warehouse where check-in and bib pick and gear check **(YES you must bring all your mandatory gear to be sighted to complete your gear check this year)** is. Wicked Elf is located about 200m from CSW and they will be doing our Pre-Race Dinner and beers on Friday and Saturday night. There is a Pre-race dinner sign out the front. No bookings needed. Please support our local's business, as they are supporting you in this event.

Team/Support Tents

All team tents 200km, 160km, 100km (solo / teams of 2) first must be booked in this year. This was done through the online gear check. When you arrive at the race hub, please find the 2IC at the race hub, her name is Liana. She will show you where you can set up. **DO NOT go set up before seeing her**, as runners have to go in certain areas. If you are in someone else spot you will be asked to move to yours. They must be put up in place **between 10am to 9pm Friday 9th**. There will be no tents put up after this, due to traffic and races being run. They will be more spaced out this year due

to COVID 19. There are NO trailers allowed in this area. You have a 3x3m tent size (please use market style tent) and you can put swags, tables, chairs, lounge etc under it (this helps with spacing). Road coming in and out must always flow to prevent the races from being held up. All races will start on time.

Parking

*****Note – first up this year, this is a shared road. There are people who live along this road, and I am not having what happen last year where some of the residents were run off the road. This is a 60km road but at event time it is only 40km. Do not speed down this road.**

SLOW DOWN 40km

If your car is reported to be speeding more then 40km or interfering with local traffic you will be asked to leave. This is for the safety of animals and people. This is a very narrow road.

There is limited parking in race area. Please park where signs and parking marshals direct you. Race parking will be from longest race (will be closest to race hub eg.160km) and (13km) will be the furthest. You will be direct by the marshals to where to park.

Please respect other competitors. Do not park anyone in, as not everyone is doing the same distance. People will be coming and going over the course of the 3 days. There is NO bus area. There will be parking marshals out there to direct traffic for parking. Always follow parking marshals' instructions. There will be a turn circle right near the race hub to drive around when leaving the area. Unload your vehicle quickly and please avoid getting in the way of vehicles parking. The race hub is in the forest, not in a normal picnic area. There is NO normal carpark.

Be aware that the road will still need to be driven up the middle, especially if we need to get an ambulance through there. Park as close to the left and right side as safely possible.

To avoid traffic congestion on Pembroke Village Road. The traffic will only be travelling in one direction until after 7.30am each morning. The road is very narrow and if you are only dropping a runner off, you will not be able to leave until after 7.30am when road is open again. **There is NO drop and go.**

There will be no traffic going out until all races are started at 7.30am. This is for safety for everyone on the road. Be aware that local landowners may be leaving their houses and will be the only ones going the other direction

RACE HUB

Please drive in and park behind the next car in front of you on either side of the road. Please park as far off the road as possible, as we need to get an ambulance through there.

DO NOT park on or near the farm, orange trees. This is private property, and we want to keep our farm neighbours happy. The paddock is in crop, DO NOT PARK ON OR NEAR IT.

Start/Finish Race HQ

Race HQ is located 400m west of the farm. Please follow the signs.

Toilet facilities are available at this location. Start/Finish HQ will be open from 07.00pm Friday 9/7/21 to competitors. Will close at 2pm Sunday 11/7/21.

Team tents will only be allowed to be put up between 10am Friday and 9pm Friday.

Race HQ will be the location for:

SOCIAL DISTANCING 1.5m always

- any competitor last minute information
- announcement of the results
- bag drop – please note that although Race HQ will be manned throughout the race, you leave your bags at your own risk.
- drop bags for the **200km, 160km, 100km (100 Miles) must be dropped off their bags direct to Start/Finish HQ before the race.**
- **You MUST collect your bib & complete your mandatory gear check either Thursday 8th between 4-8pm or Friday 9th 4-10pm before going to race start.**

About You

We want you to have a fun and above all, a safe event. However, the nature of trail running means that things can happen.

To help us help you in the event, if you need an EpiPen, please carry one in your pack and advise the St John's NSW Event Health Services staff and/or marshal of this.

Also please let check-in volunteers know, so they can record it for first aid with your race number.

Your medical information you supplied is printed on the back of your bib if you registered before the 17th June 2021. If you registered after this date and have any medical conditions or medicine that the first aid needs to know to help you, please inform the person you are checking in with and they can record on your bib.

Trail running will take you to locations that are not easily accessed. PLEASE DO NOT TAKE PART if you are injured or feel unwell. If you are unsure, please consult your doctor prior to the event.

Trail Running

Trail running may involve hazards. You will need to be able to cope with them. Race briefing will inform you where they are.

You should stay aware of your surroundings, including uneven ground, ditches, holes, ruts, creeks, bog holes, boggy or slippery surfaces (i.e. rocks), vegetation and overhanging branches, tree roots and other trip hazards, rocks, debris, etc.

Mandatory Gear

100km (Mandatory List) (***) Please note team members must each have their own gear)

You are not required to carry all your mandatory gear with you, but it is mandatory that you have it available at the Start/Finish HQ aid station tent.

Your Race pack must have enough capacity to hold the following mandatory gear and the mandatory gear that is in your drop bag at start/finish HQ (if advised to pick up by Race Director).

Mandatory Gear you must always carry:

- Water Bottles or Bladders (capacity to carry 2 Litres of water)
- Compression Bandage (Minimum Dimensions 7.5cm Wide x 2.3m Long Unstretched)
- Small Backup Light
- Emergency Space Blanket

Mandatory Gear to be available at the Start/Finish HQ aid station tent.

- Main Headlamp + Spare Batteries (required to collect after 1pm Saturday)

The mandatory gear required to carry may change if weather conditions are very cold or wet. This decision can be made by the Race Director at any time.

Please note we will not post any items left behind; it is your responsibility to collect them before 1pm Sunday 11th 2021

This Event

The 3rd race 100km (Solo / Teams of 2) is scheduled to start at 6.30am 10/7/21. Registration, mandatory gear check (with all your gear) and bib collection will take place at CSW Thursday 8/7/21 4pm-8pm or Friday 9/7/21 4pm-6pm. You must take your drop bags to the start line.

Maps showing each race will be displayed at registration/check-in.

These will show start/finish HQ, aid stations around the course, where first aid is located on each course.

Each runner has received a list of mandatory gear when they registered. The gear lists are also located under the event distance on the elephanttrailrace.com.au website.

Mandatory gear must always be carried. There is a list to carry and a list for the drop bag that is held at start/finish HQ aid station tent. There will be mandatory gear checks done over the course of the race.

If you are told to pick up mandatory gear that is in a drop bag at the start/finish HQ by the Race Director and you do not have it leaving that aid station, you will be pulled of course and DSQ. Race Directors instructions are final.

This is for your safety due to change in weather and conditions of the day. Race Directors decision is final. If you do not have it there, you do not continue to race.

There is no outside assistance on course. ETR crew, marshals and St John's NSW Event Health Services staff are the only one that can assist on course. If you have support crews and family at the start/finish HQ aid station, you are allowed assistance there. Only runners can enter the start/finish HQ area for water, food, and medical help. Support crew and family are always to stay behind the barriers.

***** Please be aware *****

We found support crew out on course. This is will not be tolerated. If one or more of your support crew are found out on course, behind barriers in a closed section, you will be DSQ on the spot. This is for all runners, first aid, volunteers and ETR crew vehicles out on course safety. Competitors are responsible for their support crew. ETR crew do not want to be chasing people down thinking they are competitors, to find out they are support crew trying to get to their runners. This is classed as outside help and is an instant DSQ. So, make sure your support crew are aware. We will not tolerate outside help or cheating.

A race briefing, which will provide essential route and safety announcements, will take place in the race start/finish area 10 minutes before the start time. This will include any last-minute course changes, due to safety or weather.

100km will do 4 laps. Their laps are 27km. Lap 1&2 are clockwise and Lap 3&4 will be anti-clockwise direction, including the 'Death Valley' section of course (which is an out and back section).

100km has NO pacers

There will be mixed terrain but mostly tracks, trails, single track, creek beds. Markers will be pink tape (with reflector) and black/yellow tape.

PINK MARKING TAPE

Pink flagging tape will be place heavy around the course. On the bottom of these, there will be reflector tape.

They will be placed on the left-hand side of the road in the clockwise direction of the course. There is an out and back section at the top of Tower Road, leading to 'Death Valley' (700m each way) on the western side of the mountain (this will be signed). You must follow the signs on the left-hand side to enter the 'Death Valley' section.

PLEASE take note - if you are not feeling well, take some time to hydrate and refuel yourself before entering the DV section (which is a 700m descent to the timing mat and recovery tent at the bottom and then 700m ascent climb back to the top to the tower). There will be a tent, blankets and emergency water at the bottom. Again, if not well, take the time to recover at the tent. It is at least a 4hour pull out from this point. You will only be pulled out by medical vac from DV.

If you cannot get back to the top as not well or have an injury, do not go down as there is only medical vac from this point. Pull outs that are not medical related are only picked up from aid stations, no other place on course.

There will be a lot of signage up there at the intersection, which is the start of the out and back. As you are doing multi-directional running, the next lot of information is especially important to understand. As it will not always be on you left hand side. When you come back up from Death Valley

you will then follow the signs at the top of the tower to East Link (remember this will be the opposite when doing the reverse anti-clockwise direction).

On each turning corner, there will be 2 pieces of pink tape about 3-4metres apart. This is to ensure you that you are going the correct direction.

If you are unsure about how it will work, speak to volunteers at check-in.

Directions & Pink Wrist Bands

Very Important to understand this.

Pink tape = Pink wrist bands (the direction you are following tape)

Left (lap1&2).

Right (lap 3&4)

When you come into the Race Start/Finish Hub each time there will be 2 things that will happen:

1st - Each lap we will ring the bell (this year) to tell everyone and the support crew/family that you have completed 1 lap. *** this is only for the 200km, milers and 100km runners.

2nd- You will get a hole punch on completion of each lap on your bib from the volunteers. **Do not leave that area until you have a hole punch (especially important).**

3rd- You will then see another marshal that will change a pink silicone wrist band from one wrist to the other depending on the number of holes in your bib. These wrist bands are especially important. They will help runners to follow the PINK tape markers when fatigued.

They glow at night and that is the direction you will be following the pink tape with reflector tape. At any time out on course you think you are not following the pink tape correctly, check your bib and pink wrist band.

Lap 1&2 it will be on your left wrist,
Lap 3&4 it will be on your right wrist,

The holes in your bib tells the marshals what lap your on and when to change it for you. After you have finished at race hub, you will go out the exit chute and the marshals will direct you the correct direction you will be next running, again depending on the number of holes in your bib and what wrist your pink band is on.

Yellow and Black-Flagging tape

Black/yellow tape is a NO GO AREA (closed part of the course).

It is especially important to not go past this marking tape. You will get lost and be off course if you follow this marking. There will be red and white X signs past this tape. Do not go past the X signs, it is a closed section. Turn around and go back to the last pink tape you have seen.

The event will have marshals who can be identified by yellow high visibility safety wear. There are no marshals on course. They are only located at the two aid stations on course. However, there are

numerous COASTAL Track and Trail Runners CTTR competing over the weekend. They will be wearing the green/blue or pink/blue CTTR shirts/singlets. They will be able to assist you if anything goes wrong. It is their home course. Most of them have run the course a number of times and should be able to assist you on where you are and also re-direct you back on track if you take a wrong turn.

Cut Off Time

100km Race will have 30 1/2hrs to complete the full 100km course.

- There will be a LAST LAP CUT OFF. You must have left the race hub by 5.30am Sunday morning. If you are still in race hub after 5.30am you will not be allowed to leave. There will be no exceptions to this rule.
- To qualify for your UTMB Points, you **MUST** be finished within the 30 1/2hrs, 1pm cut off Sunday 11th. If you have not finished by 1pm Sunday, there will be NO UTMB allocated. There is NO UTMB points for teams, only solo runners.
- At 1pm the elephant full course is officially CLOSED to all runners regardless of where you are on course. All runners will be removed from course.

MEDALS

100km (solo) will receive a finisher's medal. You will receive your finisher's medal at the end of the finish funnel from a CTTR member once you have completed the full course.

The results for place getters will be declared. Trophies will be awarded at time of finish for 1st male and female of each race distance.

To query any result, please contact the timing team within 15 minutes of the results being declared provisional. Formal protests or objections should be submitted to the race director within the same period. If no queries, protests or objections are lodged within this time, the place getter will be declared final and will not be amended under any circumstances. If any are lodged, related places will not be declared final until all matters are resolved. All race results will be checked at the end of the race. If the course is different, you will be contacted.

The full results will be posted up on the elephanttrailrace.com.au after the timing team have checked them and resolved any queries they may have.

TIMING

There will be an electronic timing system used. This will have all the race competitors list for all races uploaded (NO timing for the kids' race). The timing crew will be in control of starting the race, ensuring the accurate recording and communication of results as appropriate to the event. The timing crew will deal with any enquiries/protests. They will identify the winners of each race and they will cover any other timing requirements required by race director. There are 2 timing mats. One at the bottom of 'Death Valley' (for 200km, 160km, 100km). You must go over this timing mat to have the lap counted. There is another timing mat at the race start/finish line. This will be in the chute. The timing tags are on your bib. Please place the bib on the front of your shirt or on a race belt. It must be on your front (not on the back). All races will start on time. They will not be held up for any reason.

Your Safety

Safety is more important than anything else. A risk assessment has been carried out in the days leading up to the race. Any significant hazards will be indicated on the route map, which will be displayed at Start/Finish Race HQ.

CHANGES DUE TO RISK MAY MEAN THAT ARRANGEMENTS FOR THE RACE COURSE MAY HAVE TO BE CHANGED RIGHT UP TO THE LAST MINUTE, AND ANY ADDITIONAL HAZARDS WILL BE ANNOUNCED AT THE RACE BRIEFING. IT IS THEREFORE IMPORTANT THAT YOU ATTEND THE BRIEFING.

This will take place in the start area, 10minutes before each of the start times. Please be aware of other competitors on race route. If you are a 50km runner, you will have 100km, 160km and 200km runners running in the opposite direction, across your event throughout the day.

- a reminder not to attend if feeling unwell. If they have been in contact with a COVID 19 patient, had a cold in the last 14 days or returning from overseas in the last 14 days.
- a reminder of any hygiene practices that will be in place (e.g. hand washing, sanitising, sneezing, and coughing, spitting).
- a reminder of any physical distancing requirements that will be in place, even out on course and check points included.
- a reminder that runners should arrive self-sufficient ready to race, including all the mandatory gear that is required and bringing their own food or drink where possible for the race. There will be food at the race hub and check points, but it will not be a self-serve buffet this year like normal. There will be volunteers that will pre-pack certain food for them in paper bags and fill up their drink bottles using jugs. To minimize touching/contact between volunteers and runners.
- a reminder of the 'this is not like normal years, you must social distance when racing and being a support crew' approach.
- a recommendation to download the COVIDSafe app.

Course Rules:

- Road rules apply, all runners must stay to the left of the course.
- The uphill runner **MUST always GIVE WAY to a downhill runner**. They have 'Right of Way'.
- If an uphill runner does not give way and their bib number is reported for this reason to a marshal, ETR crew or race director, there will be a penalty.
- If the bib number is reported more than once for the same issue, they will be DSQ and pulled from the course if this is found to be true.
- Safety comes first for all runners, marshals, ETR crew and first aid responders.
- Social distancing still always applies out on course.

This area is a closed course and locals will be notified and area signed. Please be aware if you see public on course, please be courteous always and give right of way to them. We do not want complaints from public please.

Mathew and I would like to thank everyone for coming and taking on the Elephant in 2021. We hope you enjoy your adventure you are about to take on, in the elephant fun park and hope you will come back in October for ETR 2.0 this year and take on the distance again or even take on a bigger distance and go out of your comfort zone. If we do not see you at the warmer elephant in October, we hope to see you back next year, which will be bigger and full of more magic, as it will also be our 5th year and one not to miss.

This document considers the changes in how our trail running events are managed and offers guidelines towards best practices moving forward. Nevertheless, we recognize we cannot eliminate the risk of runners, support crew, spectators leaving their home and attending a trail running event/race/training. We feel as race directors that we can only try to reduce the risk of this outdoor activity.
